Overall Length:

7.060 inches

Overall Width:

1.060 inches

Material Thickness:

0.040 inches

Aircraft Location:

Skin assembly, upper, leading edge, vertical stabilizer, hf antenna

Aircraft Mission Design Series:

F-15

Special Features:

Requested name: filler uhf; material: 6al-4v

Material:

Titanium alloy

Material Specification:

Mil-t-9046, type 3, composition c, annealed military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400

Mil-std (military Standard):

Mil-t-9046 spec.
