Cross Sectional Shape:

Arched

Edge Shape:

Rectangle, multi holes

Securing Device Type:

Threaded fastener

End Application:

F-16 c/d blk 50

Special Features:

All -819 may be used for all replacements of -809; nha 16b6506; engine access-lwr, rh; fs 389.80 to fs446.10; arched in cross-sectional shape; rectangle, sharp corners, multi-holes

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0
