Cross Sectional Shape:

Flat

Width:

6.500 inches

Edge Shape:

Rectangle, no holes

Length:

4.700 inches

Body Thickness:

1.000 inches

End Application:

C130-j hercules

Special Features:

4 holes 0.374/0.381 in. Dia, 2 spaced 4.300 in. Center to center along length, and 2 spaced in 1.89 in. Along the length spaced 0.920 in.

Center to center

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 cond t3 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0
