Overall Length:

18.000 inches

Overall Diameter:

2.720 inches

Material:

Nickel alloy

General Description:

Seal type joint type pressured balanced (low pressure) in line bleed air ducting system compensators, intended use in absorb axial variations in duct length caused by temperture and dimensional tolerances of the structure and ducts, location outer wing leading edge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
