Overall Length:

82.000 inches

Overall Width:

5.000 inches

Material Thickness:

0.063 inches

Aircraft Location:

Wing root

Aircraft Mission Design Series:

F-16c/d/a/b

Special Features:

Dwg name/support details, fairing-wing root, bl 41.500; effectivity determines nha 16w1050/2050

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/t62 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
