Overall Length:

20.000 inches

Overall Width:

8.000 inches

Material Thickness:

0.071 inches

Aircraft Location:

Vertical stabilizer, leading edge

Aircraft Mission Design Series:

F-15i

Special Features:

Requestedname: closure, vertical

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Surface Treatment Specification:

Anodize per ps13201 type i class 1 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
