Overall Length:

2.710 inches

Overall Width:

1.880 inches

Material Thickness:

1.000 inches

Aircraft Location:

Foreign object seal, number 1 fuel tank support structure assembly

Aircraft Station Number:

Fs429.750 to fs443.250

Aircraft Mission Design Series:

F-15c/d

Special Features:

Manufacture suggested name-foam block

Material:

Plastic polyurethane

Material Specification:

Hh-i-530, type i, grade 2, class 1 federal specification single material response

Surface Treatment:

Paint epoxy

Surface Treatment Specification:

Mms-405 green epoxy primer per ps13415 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11800
