Overall Length:

28.000 inches

Overall Width:

6.000 inches

Material Thickness:

0.063 inches

End Application:

F-16 aircraft

Aircraft Location:

Cover, engine access - lower, assembly of

Aircraft Station Number:

Fs389.800 to fs446.200

Aircraft Mission Design Series:

F-16

Material:

Aluminum alloy

Material Specification:

Qq-a-250/4-t62 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
