Fabrication Method:

Honeycomb

Overall Length:

21.000 inches

Overall Width:

29.000 inches

Thickness:

0.492 inches

End Application:

E-2

Aircraft Station Number:

555

Aircraft Mission Design Series:

Fuselage, mid section

Material:

Aluminum alloy 7075

Material Specification:

Fed specification single material response

Surface Treatment:

Alodize and paint epoxy

Surface Treatment Specification:

Qq-a-250/13 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11700
