Aircraft Location:

Wing; outboard

Material:

Plastic polyurethane

Material Specification:

830548 military specification single material response

Special Test Features:

Physical properties and characteristics

Test Data Document:

Mil-b-83054b; table 1featgdark blue; 1.3 lbs/ftcubed; 15 pores per inch; polyether standard (includes industry or association standards, individual manufactureer standards, etc.).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700

Mil-std (military Standard):

spec.
