Overall Length:

2.750 inches

Overall Width:

1.600 inches

Material Thickness:

0.500 inches

Aircraft Location:

Flying boom

Aircraft Mission Design Series:

Kc-135

Special Features:

U/a: support, boom chain guard; matl: 2024-0 clad sh 0 temp, ht t4; required for the low speed speed air refueling boom

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
