**Overall Length:**

3.300 inches

**Overall Width:**

2.400 inches

**Material Thickness:**

0.050 inches

**Aircraft Location:**

Flying boom

**Aircraft Mission Design Series:**

Kc-135

**Special Features:**

U/a: support, boom chain guard; matl: 2024-0 clad sh 0 temp ht t4; required for the low speed air refueling boom

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-362 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11800
