**Overall Length:**

15.500 inches

**Overall Width:**

9.500 inches

**End Application:**

Sh-2 (a) seasprite helicopter

**Special Features:**

Part of door assembly - center nacelle, sta 181.00 to sta 216.00; wire mesh screen is 0.063 in. Dia. Wire by 0.750 in. By 0.750 in. Square; binder is type viii a (7581) glass fabric volan (a), 2 ply, 2.000 in. Width by 50.000 in. Length; resin is polyester, thermosetting, low-pressure laminating type, non corrosive to metals; screen location is sta 198.50 to 207.00

**Material:**

Aluminum alloy and glass fiber and resin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
