**End Application:**

Windsheild, cockpit canopy; ch-53e, mh-53e; s-80e-1; s-80m-1

**Side For Which Designed:**

Right side

**Criticality Code Justification:**

Agav

**Product Name:**

Inavy: windsheild, cockpit canopy

**Aircraft Station Number:**

BI24.0

**Aircraft Mission Design Series:**

H-53

**Special Features:**

Abrasion resistant coating (pilkington arc ss-6590) is to be applied to the entire outer and inner surface of the outer and inner panel. Windsheild shall be capable of withstanding settings of 110 degrees f, measured at the temperature sensors; windsheild shall be capable of operating at ambient air temperatures of -65 degrees f.

**Material:**

Plastic acrylic

**Material Specification:**

Mil-p-25690 military specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A11700

**Mil-std (military Standard):**

Mil-p-25690 spec.
