Overall Width:

1.540 inches

Material Thickness:

0.630 inches

End Application:

Ch-53a; ch-53d; ch-53e

Hole Quantity:

8

Product Name:

Front frame and clip, engine air particle separator

Aircraft Mission Design Series:

Ch-53a

Special Features:

Assembly consists of: bracket, nutplates, rivets

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11800
