Overall Length:

3.000 inches

Overall Width:

0.500 inches

Material Thickness:

0.500 inches

Aircraft Location:

Aft wing attachment

Aircraft Mission Design Series:

A-10a

Special Features:

Nha 160j611311; effectivi type 1 through on; forging ams 6526 alloy steel, superstrength; holes will require reaming when installing part; dimensions are stocksize

Material:

Nickel alloy

Material Specification:

Ams6526 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
