**Overall Length:**

3.000 inches

**Overall Width:**

0.500 inches

**Material Thickness:**

0.500 inches

**Aircraft Location:**

Aft wing attachment

**Aircraft Mission Design Series:**

A-10a

**Special Features:**

Nha 160j611311; effectivi type 1 through on; forging ams 6526 alloy steel, superstrength; holes will require reaming when installing part; dimensions are stocksize

**Material:**

Nickel alloy

**Material Specification:**

Ams6526 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11800
