Fabrication Method:

Composite

End Application:

F/a-22 raptor

Aircraft Location:

Inboard, upper, leading edge, fixed

Aircraft Mission Design Series:

F/a-22 raptor

Special Features:

Carbon/bmi and glass/bmi composite construction

Material:

Resin and glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
