**Fabrication Method:**

Composite

**End Application:**

F-22 raptor

**Aircraft Location:**

Upper, inboard leading edge

**Aircraft Mission Design Series:**

F-22

**Special Features:**

Carbon and glass/bmi composite construction

**Material:**

Plastic epoxy and glass fiber

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11700
