Overall Length:

3.000 inches

Overall Width:

3.000 inches

Material Thickness:

0.063 inches

End Application:

F/a-22 raptor

Product Name:

Bracket

Aircraft Location:

Forward boom

Aircraft Station Number:

Fs637.0 to fs769.0

Aircraft Mission Design Series:

F/a-22 raptor

Special Features:

Ann tit. 6al-4v (ab-1)

Material:

Titanium

Material Specification:

Ams-t-9046 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
