Overall Length:

4.600 inches

Overall Width:

1.500 inches

Material Thickness:

0.020 inches

Aircraft Location:

Hnycmb panel assembly-upr sped brake

Aircraft Mission Design Series:

A-10

Special Features:

Manufacture suggested nam (angle) ; dimensions are stocksize; used on -3 panel assembly

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13-0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
