**Overall Length:**

4.600 inches

**Overall Width:**

1.500 inches

**Material Thickness:**

0.020 inches

**Aircraft Location:**

Hnycmb panel assembly-upr sped brake

**Aircraft Mission Design Series:**

A-10

**Special Features:**

Manufacture suggested nam (angle) ; dimensions are stocksize; used on -3 panel assembly

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250/13-0 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11800
