Overall Length:

2.700 inches

Overall Width:

0.900 inches

Material Thickness:

0.063 inches

Aircraft Location:

Rudder assembly, rh/lh

Aircraft Mission Design Series:

A-10a

Special Features:

U/0 -1, -3, -5, -7, -9, -11, -17, -19; dimensions are stocksize; al sh laminated; manufacture suggested nam (shim)

Material:

Aluminum alloy

Material Specification:

Ams4013 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
