Overall Length:

7.500 inches

Overall Width:

2.200 inches

Material Thickness:

0.040 inches

Aircraft Location:

Front spar assembly

Aircraft Mission Design Series:

A-10a

Special Features:

Alcd sheet; u/0 -1; of upper speed brake; dimensions are stocksize; manufacture suggested nam (doubler)

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13-t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
