Overall Length:

7.500 inches

Overall Width:

2.900 inches

Material Thickness:

0.040 inches

Aircraft Location:

Front spar assembly

Aircraft Mission Design Series:

A-10

Special Features:

U/o -1 and -2; dimensions are stocksize; manufacture suggested nam (doubler, plate) ; alch sh.

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13-t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
