Overall Length:

3.000 inches

Overall Width:

2.000 inches

Material Thickness:

2.000 inches

Aircraft Location:

Actuator & balance wt. Backup

Aircraft Mission Design Series:

A-10

Special Features:

Dimensions are stocksize; on trim tab of deceleron; see note 4 for alternate matl.; al pl

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12-t7531 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
