Overall Length:

16.200 inches

Overall Width:

3.100 inches

Material Thickness:

Between 0.805 inches and 0.815 inches

Product Name:

Spacer

Aircraft Location:

Spacer attach, inboard pylon to wing

Aircraft Mission Design Series:

C-5

Special Features:

Requested name spacer; nha 4p51096

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4, t351 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
