Overall Length:

75.000 inches

Overall Width:

15.000 inches

End Application:

B-1b aircraft

Criticality Code Justification:

Feat

Product Name:

Tip, horizontal stablizer, assembly of spares

Special Features:

Thickness 3.20 inches; function

Material:

Aluminum alloy

Supplementary Features:

Contact tinker afb engineering data repository (oc-alc-igldod) for complete technical data package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
