Overall Length:

3.250 inches

Overall Width:

2.000 inches

Material Thickness:

1.800 inches

Product Name:

Bracket assembly, slide blk support

Aircraft Location:

Panel assembly, engine nacelle cowl

Aircraft Mission Design Series:

E-3a

Special Features:

15-5ph bar; c/o 1 supt., 1 carb.Blk, 1 bolthead, 1 lam shim

Material:

Stainless steel

Material Specification:

Ams5659 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
