Next Higher Assembly Identification Designator:

65-56931

Product Name:

Door

Aircraft Location:

Inboard dry bay wing lower surface

Aircraft Station Number:

Front spar station 683.5 to 666.1

Aircraft Mission Design Series:

E-3a

Special Features:

7 made from the -8; inspect per mil-c-6021f and 0.13169; srf 2.30; -7 &-8 are identical to -3 & -4 except for material and finish

Material:

Aluminum alloy

Material Specification:

Qq-a-591 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11700
