Overall Length:

15.500 inches

Overall Width:

11.000 inches

Material Thickness:

0.125 inches

End Application:

Doubler assembly- wing tip, form light, harrier ii, mcdonnell douglas corp

Side For Which Designed:

Right side

Product Name:

Doubler lh

Aircraft Location:

Wing tip

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
