**Overall Length:**

8.700 inches

**Overall Width:**

5.000 inches

**Material Thickness:**

0.040 inches

**Product Name:**

Lower fair rem

**Aircraft Location:**

Leading edge assembly

**Aircraft Mission Design Series:**

A-10a

**Special Features:**

Heat treat t-6; sheet; used on -2, -4, -8, -202, -204, -10 leading edge assembly deceleron

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250-13 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11500
