Overall Length:

8.700 inches

Overall Width:

5.000 inches

Material Thickness:

0.040 inches

Product Name:

Lower fair rem

Aircraft Location:

Leading edge assembly

Aircraft Mission Design Series:

A-10a

Special Features:

Heat treat t-6; sheet; used on -2, -4, -8, -202, -204, -10 leading edge assembly deceleron

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250-13 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11500
