Overall Length:

6.000 inches

Overall Width:

2.000 inches

Product Name:

Fitting assembly

Aircraft Location:

Spring beam-keel Ins

Aircraft Mission Design Series:

F-22

Special Features:

125 fitting assembly consists of -129 fitting and -109 fitting assembly, dims are stock material, -129 material is ams-t-9046 6al-4v (ab-1) titanium sht

Material:

Titanium alloy

Material Specification:

Ams-t-9046 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
