**Overall Length:**

10.500 inches

**Overall Width:**

5.200 inches

**Material Thickness:**

0.040 inches

**Product Name:**

Upper fairing

**Aircraft Location:**

Leading edge assembly

**Aircraft Mission Design Series:**

A-10 aircraft

**Special Features:**

Heat treat t6; used on -1, -3, -7, -201, -202, -203, -9; leading edge assembly deceleron

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250/13 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11500
