Overall Length:

32.000 inches

Overall Width:

16.000 inches

Material Thickness:

5.500 inches

Side For Which Designed:

Right side

Product Name:

Wing splice, fitting

Aircraft Location:

Upper outboard, aft

Aircraft Station Number:

Ws110.00

Aircraft Mission Design Series:

A-10a

Special Features:

Make from forging 160d612607f; heat treat t411; dimensions are stocksize; alt. -14

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-367 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
