Overall Length:

8.000 inches

Overall Width:

1.250 inches

Material Thickness:

0.032 inches

Product Name:

Retainer

Aircraft Location:

Structure installation, rear cockpit canopy, aft

Aircraft Mission Design Series:

T-38 aircraft

Special Features:

Heat treat 0; dim are stocksize

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
