Overall Length:

99.000 inches

Overall Width:

8.000 inches

Material Thickness:

0.071 inches

Product Name:

Spar

Aircraft Location:

Spar, fwd auxiliary ventrical stabilizer

Aircraft Mission Design Series:

F-16

Special Features:

Dim are stock material; heat treat t62

Material:

Aluminum alloy

Material Specification:

Qq-a-250/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
