Overall Length:

4.000 inches

Overall Width:

3.000 inches

Material Thickness:

0.090 inches

Aircraft Location:

Shear web assembly, landing light structure/wing

Aircraft Mission Design Series:

C-5 aircraft

Special Features:

Heat treat 0; dimensions are matl. Size

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
