Material Thickness:

0.032 inches

End Application:

E-2a aircraft; fairing assembly, control surf-outbd rudder upper

Aircraft Mission Design Series:

E-2a

Special Features:

Consists of aluminum stiffener (5" x 8.250") and fairing

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11500
