**Overall Length:**

10.000 inches

**Overall Width:**

35.000 inches

**Material Thickness:**

0.050 inches

**End Application:**

E-2a aircraft

**Product Name:**

Doubler

**Aircraft Location:**

Skin installation; fuselage-mid section/fuselage fwd fairing

**Aircraft Mission Design Series:**

E-2a

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250/12 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11400
