Overall Length:

77.000 inches

Overall Width:

32.000 inches

Material Thickness:

0.050 inches

End Application:

Aircraft, hercules c-130

Aircraft Station Number:

Fs491.0

Special Features:

Next higher assembly main landing gear, fairing

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
