**Overall Length:**

77.000 inches

**Overall Width:**

32.000 inches

**Material Thickness:**

0.050 inches

**End Application:**

Aircraft, hercules c-130

**Aircraft Station Number:**

Fs491.0

**Special Features:**

Next higher assembly main landing gear, fairing

**Material:**

Aluminum alloy 7075

**Material Specification:**

Qq-a-250/13 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A11400
