End Application:

A-10

Product Name:

Door

Special Features:

Used on speed brake control lwr access, deceleron le; -36 replaced by -47; used on aircraft 1 and up, see note 33 for rework; heat treat t6; alcd sh; u/o -5, -8; dim. Are stocksize; 53.0 x 9.0 x 0.10

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/13 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
