End Application:

F-22 raptor

Product Name:

Door

Special Features:

Elect. External pylon; thk 0.125; matl. Class qq-a-250/4; length 11.000; t81 sheet; dimensions are stocksize; used on -105 assembly; width 5.000

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531m0
