Cross Sectional Shape:

Flat w/open center

Hole Diameter:

0.250 inches and 0.254 inches

Body Thickness:

0.200 inches

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Unthreaded hole

End Application:

A-10a thunderbolt ii

Product Name:

Door center spar

Special Features:

Matl qq-a-250/24b al aly 7075-t7651; precision forging, die part number 160d611310-11; dim are stock matl

Material:

Aluminum alloy 7075

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531h0
