Overall Length:

3.500 inches

Overall Width:

3.000 inches

Material Thickness:

0.020 inches

End Application:

Th-1h helicopter

Side For Which Designed:

Right side

Product Name:

Channel, rh

Aircraft Location:

Frame instl lwr windshield sup, cabin

Aircraft Mission Design Series:

Th-1h mod

Special Features:

Temp t3; al aly sht; dim. Are stocksize matl.

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11400
