Overall Length:

79.680 inches

Overall Height:

47.750 inches

Overall Width:

58.700 inches

End Application:

Aircraft nose

Radome Flexibility:

Rigid

Product Name:

Nose radome assembly

Special Features:

Weight: 67.50lbs; aerodynamic fairing and viewing aperture for chin esm antennas and weather radar

Material:

Fiberglass

Material:

Glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-b
