Overall Length:

4.400 inches

Overall Width:

4.000 inches

Material Thickness:

2.500 inches

End Application:

Sh2-g

Aircraft Location:

Lower roof access step

Aircraft Mission Design Series:

Seasprite sh2-g

Special Features:

Consists of 1 support, 2 bushings

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
