Criticality Code Justification:

Feat

Product Name:

Hinge housing assembly

Aircraft Location:

Horizontal stabilizer center section

Aircraft Mission Design Series:

Kc-135

Special Features:

If failed could prevent the movement of the horizontal stabilizer during flight which could cause the loss of the aircraft because it could not be landed safely. The engineering drawing states that the critical feature for this part is the material and heat treat; opposite -10; alternate to -1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A11800
